Title: Differential Susceptibility to Obesity Between Male, Female and Ovariectomized Female Mice

Version: 2 Date: 21 January 2009

Reviewer: Blanka Zelezna

Reviewer's report:

The data I missed in the manuscript have not been added. I understand very well that it is difficult regarding an animal study. However, I do not consider the study complete without them.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
