

Reviewer's report

Title: Supplementation of the diet with the functional fiber PolyGlycoplex(R) is well tolerated by healthy subjects in a clinical trial

Version: 2 **Date:** 13 January 2009

Reviewer: John A. A Thomas

Reviewer's report:

Dear Editor: I have again reviewed Ms. 1280947316220681 (Supplementation of the diet with the functional fiber PolyGlycoplex..., by Carabin, et al).

Since the authors have responded to my earlier concerns/queries, I recommend that this revised manuscript be ACCEPTED for publication in The Nutrition Journal.
