

Reviewer's report

Title: Major reduction of malaria morbidity with combined vitamin A and zinc supplementation in young children in Burkina Faso: A randomized double blind trial

Version: 2 **Date:** 7 September 2007

Reviewer: Amy Webb

Reviewer's report:

I have read the revised manuscript and the comments from the authors and believe that the authors have adequately addressed the issues raised by the reviewers. I believe this manuscript is now acceptable for publication and will be of great interest to readers of Nutrition Journal and those interested in the nutritional modulation of malaria immunity in general.

What next?: Accept without revision

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
