

Reviewer's report

Title: Tolerance of a standard intact protein formula versus a partially hydrolyzed formula in healthy, term infants

Version: 2 Date: 12 September 2008

Reviewer: Ron Shaoul

Reviewer's report:

Although not revolutionary, the paper is nicely designed, looking at the partially hydrolyzed formulas not from the allergic aspect as previous studies did. The study should be accepted for publication.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
