Author's response to reviews: see over

Dear Editor,

Thank you for considering our manuscript titled : 'Stroke and plasma markers of milk fat intake - a prospective nested case-control study' (MS 4259238142492618) for publication in the *Nutrition Journal*.

We hope that the last form correction suggested by the reviewer made on page 9 in the manuscript ("**When examining the association of 17:0 in phospholipids with stroke in women, adjustment ...had virtually no effect on the odds ratios (table 3).**") now make it suitable for publication in *Nutrition Journal*.

Sincerely,

Eva Warensjo on behalf of all authors
