Title: Correlation of Omega-3 Levels in Serum Phospholipid from 2053 Human Blood Samples with Key Fatty Acid Ratios

Authors:

Bruce J Holub (bholub@uoguelph.ca)
Mike Wlodek (mwlodek@nutrasource.ca)
William Rowe (mrowe@nutrasource.ca)
Jerry Piekarski (lal@idirect.ca)

Version: 6 **Date:** 4 December 2009

Author's response to reviews:

Thank you for your recent email and recommendation that we insert some demographic information on our subjects into the Discussion section. As requested, we have inserted two sentences into the last paragraph of the Discussion section on the demographic information available to us. We are hopeful that our manuscript will now finally be found acceptable for publication in Nutrition Journal.
